

NEW KAWARAU FALLS BRIDGE NIGHT WORKS & LONGER WORKING HOURS

An accelerated work programme is about to start so both lanes of the new Kawarau Falls Bridge are open in May. This five-week programme to complete the bridge underpass and utility upgrades will begin next week.

What does this mean?

- From Tuesday 20 February day shifts will begin from 6:00am to 6:00pm, Monday to Saturday for five weeks.
- From Thursday 22 February, a night shift will also run from 6:00pm to 6:00am, Monday to Friday, for three weeks.

Careful planning means noisier jobs will be done during the day, and quieter carpentry and steel reinforcement work in the evening.

Small machinery and light towers are essential to safely carry out the night work.

We apologise in advance for any disturbance these may cause.

For more information please contact 0508 MCD COMMS (0508 623 266).
